Topic	Part H Default Issues
Summary	Letter provides legal advice that has been incorporated into the paper on the Proposed Change to the Prudential Security Methodology (agenda item 7).
Market Administrator's Recommendation	The Market Administrator recommends that the Wholesale Market Advisory Group note this item of correspondence. Note, the Retailer Insolvency workstream will be addressed by the Retail Market Advisory Group later this year. This letter has been passed on to the Market Administrator's representative on that group, for their information.

Item 3

Date	2 August 2004
Party	Letter from Norske Skog Tasman to the Chair of the Wholesale Market Advisory Group
Topic	Upgrade to SPD
Summary	Letter notes that Norske Skog Tasman are aware Transpower use the AIMMS modelling language to define the equations in SPD and note that this version prohibits the use of the latest versions of Cplex. They believe the accuracy of SPD could be substantially improved if the power available from the latest versions of the Cplex solver were used. Norske Skog Tasman believe more efficiency would be gained if Transpower were to extricate itself from arrangements with the current SPD vendor and believe the formulation of SPD should be reviewed so the upgrade is maximised.
Market Administrator's Recommendation	The Market Administrator recommends that the Wholesale Market Advisory Group note this item of correspondence.
