

MEMORANDUM

TO: Participants
FROM: Robert Reilly, Senior Advisor Retail
DATE: Friday, 17 June 2005
SUBJECT: New GXP Approved Profile Name - AGE

The market administrator would like to advise that the following profile has been approved for use from 1 July, under the Electricity Governance Rules 2003 (EGRs).

This profile is based on the standard GXP profile of Class 1.4, only the profile Name is new to allow the retailer to identify load associated with this profile, (as is also currently done for Todd Energy with the BOP profile name, or Contact Energy with KXP, R40, R62 as an example).

Code	Name	Class	Characteristics
GXP	AGE	1.4	B&E, C&E

In accordance with rule 6.6 of code of practice G2 of schedule G8 of part G of the EGRs if you wish to use this profile you will need to first gain the approval of the profile owner (Todd Energy).

The approved profile register will be updated to reflect the approval of the AGE profile.

If you have any questions, please contact the market administrator by email on info@electricitycommission.co.nz.
